

Advanced Leadership!

It Takes A Great Leader To Lead A Great Team Forward!

Leadership abilities are acquired! A true leader needs to be able to embrace leadership skills from one of three points of view: self as leader, leadership as a way of life and creating a need to help other through leadership. The programme guides participants in their personal reflection of four broad aspects of leadership: Personality, Analysis, Accomplishment, and Interaction

As you undergo this workshop, you will realize that leadership is all about knowing yourself, your interpersonal communication and the style of which you lead. You will gain the necessary skills to sharpen your leadership ability by being more aware on how to manage people. The workshop will be highly activity-orientated. The fundamental principles leadership and their primary mastery will be imparted to you in a simple, fun and effective way.

Participants will learn by experiential experience. A mixture of theory and well as practical applications will be presented for maximum absorption throughout the session. Participants will be guided to make personal reflections and participate in group discussions in an environment of Trust and Mutual Benefit.
