

InterCom

Communicate Well. Interpersonal Relations Excel!

Impactful communications are vital skills for all professionals in any industry. Communicating to another person requires an understanding of one's personality and the personality of the other person. Also, by using the power of physical projection based on the rules of body language, one can influence the other person to have a positive impression of him/her. Moreover, this workshop also covers the effects of power posturing in verbal communication and also the inner qualities for interpersonal interaction based on the principles of personal and professional integrity.

This workshop is to inculcate into each participant through the importance of effective communication which includes verbal and non-verbal communication. Participants will learn the core aspects of what how to groom better, understand self and others better through understanding personality and key elements of what makes a successful communicator using Neuro Linguistic Programming (NLP) Technologies.. Participants will also be exposed to key elements in communication for success. At the end of the workshop, participants shall hold in their hands specific skills, concepts and experiences that can propel them forward professionally
